

PROFILE OF INNOVATION

# AIA Architectural Breakfast

## The Technology Behind the Tile: Moisture Management

Architects are invited to join **Schluter®-Systems** and **Daltile Irvine**, for a 1 hour presentation on Moisture Management. Let our technical experts answer all your questions along with fellow colleagues in an informative, energetic atmosphere. Breakfast compliments of Schluter®-Systems.

**Date:** Tuesday, September 20, 2011  
**Time:** 8:00 a.m. - 9:00 a.m.  
**Location:** Daltile Irvine  
1132 Duryea Avenue, Irvine, CA 92614  
**R.S.V.P.:** Jeff Dizmon • 1-949-260-0488 • jeffrey.dizmon@daltile.com

**AIA CREDIT IS AVAILABLE FOR ALL ELIGIBLE ATTENDEES.**

### Schluter®-Shower System

Waterproofing is the foundation of a successful tiled bathroom. Moisture-sensitive construction materials must be protected from water and vapor penetration to prevent damage, and the growth of mold. Learn about the Schluter®-Shower System – an integrated family of products that create fully waterproof and vaportight enclosures for tiled showers, steam showers, and bathtub surrounds. Reduce the total installation time by eliminating the need for a traditional mortar bed, pan liner, and cement backer-board. Tiles can be set immediately after the installation of KERDI.

### Schluter®-DITRA

Learn how a multi-functional underlayment produces tiled floors that will last a lifetime. Specifically designed for ceramic and stone tile, Schluter®-DITRA and DITRA-XL provide uncoupling, waterproofing, vapor management and load support – the 4 essential functions for a successful installation.
