INNOVATION WORKSHOP

ALTAMONTE SPRINGS, FL

350 S. North Lake Blvd., Altamonte Springs, FL 32701

The Technology Behind the Tile

Join Schluter®-Systems' technical experts for a free Innovation Workshop outlining the latest state-of-the-art installation solutions for ceramic and stone tile installations and the theories behind their innovation. Share your experiences with colleagues in an informative, energetic atmosphere.

2012

February 29 - March 1

May 16-17

August 29-30

INNOVATION WORKSHOP

2-day course consists of both classroom and hands-on instruction

TOPICS COVERED INCLUDE:

Shower System

Waterproofing is the foundation of a successful tiled bathroom. Moisture-sensitive construction materials must be protected from water and vapor penetration to prevent damage, and the growth of mold. Learn about the Schluter®-Shower System – an integrated family of products that create fully waterproof and vaportight enclosures for tiled showers, steam showers, and bathtub surrounds.

DITRA & DITRA-XL

Learn how a multi-functional underlayment produces tiled floors that will last a lifetime. Specifically designed for ceramic and stone tile, Schluter®-DITRA and DITRA-XL provide uncoupling, waterproofing, vapor management and load support – the 4 essential functions for a successful installation.

KERDI-BOARD

Whether you work with mosaics or large-format tiles, an absolutely flat substrate with straight and precisely aligned inside and outside corners is essential for creating a perfect tile covering - which tile installers can now achieve on their own, using Schluter®-KERDI-BOARD. KERDI-BOARD is waterproof and dimensionally stable, as well as lightweight and easy to work with. Substrate, building panel, bonded waterproofing... discover the possibilities!

Profiles

Discover how profiles both protect and beautify tile installations. Protect tile edges and create smooth transitions on tiled floors; finish and protect tile edges on walls; see how profiles allow you to create beautiful, functional tiled countertops – without the need for ceramic trim pieces; create safe and durable tiled stairs; and learn about proper use of movement joints.

INNOVATION WORKSHOP

HOTEL & WORKSHOP

Hilton Orlando Hotel

350 S. North Lake Blvd.
Altamonte Springs FL 32701
