

PROFILE OF INNOVATION

INNOVATION WORKSHOP

Ottawa Technical Learning Centre

485 Donald Street, Ottawa, ON K1K 1L8

JOIN US!

Join Schluter®-Systems' technical experts for a course outlining the latest innovative solutions for ceramic and stone tile installations. Since the early 1970's, Schluter®-Systems has consistently met the needs of a rapidly evolving industry by developing practical solutions for tile installation challenges. Our areas of expertise include transition and edge-protection profiles, prefabricated corner and movement joints, waterproofing, uncoupling, and drainage membranes, floor drain systems, modular screed systems, and assemblies for balconies and terraces.

Courses consist of both classroom and hands-on instruction. Learn state-of-the-art installation techniques and the theories behind their innovation, and share your experiences with colleagues in an informative, energetic atmosphere.

If you are interested in attending a Schluter®-Systems Innovation Workshop, contact your Territory Manager. Space is limited, **so reserve now!**

INNOVATION WORKSHOP

HOTEL
